INTERESTS

PROJECTS

FOLDLINGS

iOS APP

A tool for creating and simulating 90-degree pop-up books with arbitrary shapes. iOS development in Swift using SceneKit. Created with Tim Tregubov and Marissa Allen. See: www.foldlings.com

WORD BLASTOFF

iOS WORD GAME

A physics-based word game, now available on the App Store. Pixel-perfect design and development with Objective C, using SpriteKit. Created with Michelle Khare. See: www.wordblastoff.com

ARBOR BIOLOGY

UNITY APP

3d visualization software for annotated phylogentic trees. I created mockups, built a parser for the tree format, and developed game components in C#. Created with DALI Lab student members.
